## <Work Experience />

### Atlassian | SDE-2 | March 2022 - current

Member of [marketplace.atlassian.com](https://marketplace.atlassian.com) team.

- Developing UI for lifecycle of 'App Store' hosting various add-ons apps for Atlassian product platform (**Jira**, Confluence, Bitbucket, Trello and more)
- Implemented React **Server-side Rendering** to App-Listing pages to decrease Largest Contentful Paint (**LCP**) by **~70%**
- Key contributor for Dev Productivity initiatives: Typescript Migration, Build Pipeline improvements, better testing strategy and etc.

### CK12 | SDE | November 2021 – March 2022

Accessibility for [ck12.org](https://ck12.org) (non-profit organization)

- Key contributor for bringing accessibility to ck12.org homepage and flexbook2.0 pages (**~80%** of whole website).
- Re-wrote existing components to build a **new React UI library** wrapper (named Atoms) over [React](https://reactjs.org/docs/using-refs.html) to achieve a11y for future developments.
  - Unblocked the foundation to expand** quickly and cater to more diverse students.
  - New library with robust a11y components **decreased** new feature development time and **increased** dev productivity by multi-fold.

### Amadeus | SDE | July 2019 – October 2021

User Profile searching app in Sell Connect

- Feature lead and responsible** for full implementation from concept to finish of a **decoupled** and **reusable** advanced profile search page.
- Query 200+ profiles in tabular view for 6+ different type of profiles with **+100% performance** and UX increase over legacy app using Angular 11.

Service-Menu in Sell Connect

- Key contributor to Dynamic search bar developed using REST APIs to serve **1 million+** active 'travel agent' users in finding solutions to their troubleshooting.
- Developed 'content-viewer': a native **floating** and **draggable pop-up window** to load external links in an iframe after performing search using Angular 11

### Amadeus | Intern | January 2019 – June 2019

- Exclusive contributor to implementation of a standalone UI portal for business travellers to manage their own profiles and preferences.
  - To **reduce** massive overhead of work for travel agents
- Created UI and UX mock-ups and **fully responsive mobile first** website with Angular 8 for end-to-end flows leveraging existing enterprise backend APIs.

## <Skills />

React.js Angular TypeScript  
JavaScript Java HTML5  
CSS/SASS UI/UX design  
Bootstrap Redux Webpack  
Unit-testing Jest Jira  
Agile-scrum Storybook  
Node.js Adobe XD Figma

## <Education />

**B.E. in Computer Engineering**

Thapar Institute of Engineering and Technology, India. (2015 - 2019)  
CGPA **8.18/10**

**Senior Secondary School Education**

Budha Dal Public School, Patiala, Punjab, India. (2001-2015)  
**94.8%** (CBSE)

## <Certificates />

- Meta Front-end developer prof. certification. (Coursera 2022) [↗](#)
- React – Complete guide (Udemy 2022) [↗](#)

## <Achievements />

- 2 times Atlassian **Hackathon (Ship-It 54 & 56) winner** out of 450+ teams. (2022 & 2023)
- Amadeus **Delivery Excellence Award** (Q1-2020 & Q2-2021)
- Highest performance rating** in 1<sup>st</sup> year of professional career at Amadeus Labs. (2020)
- All India ranked **209** out of top finalists from 200+ **Elite** Engineering Institutes from India. (CodersBit Challenge by InterviewBit) (September 2018)
- All India Percentile in JEE(Main): **98.46** (2015)
